

ADOPTION SCHEME

**Any animal or tree can be adopted for one year for £25 or more.
Each adoption is acknowledged with its own plaque.**

All adoption money go into the Conservation Fund and all of that fund is used to help conservation work, particularly with South American animals if they are connected with work here at Amazona Zoo.

None of the adoption money is used to cover administration, postage or production of the plaques. It is regrettable therefore that no photographs can be supplied or correspondence can be entered into about particular animals.

On my own behalf, or on behalf of: (please print clearly)

I would like to adopt: for the sum of £.....

Name: Date:...../...../.....

Address:

Please send me the plaque first or, please erect the plaque
